

## International Workshope for Young Psychologists

July 26, Saturday

Session: Comparative Perception & Cognition

13:10-13:40 Atsuko Saito, Akichika Mikami, Yoshikazu Ueno, Shoji Kawamura, Kanthi Arum Widayati, Bambang Suryobroto, & Toshikazu Hasegawa  
Advantage of dichromats over trichromats in discrimination of color-camouflaged stimuli

13:40-14:10 Katherine A. Leighty  
Cross-dimensional object recognition

14:10-14:40 Dalila Bovet, Jacques Vauclair  
Comparing the categorization and abstraction abilities of baboons and three-year-old children.

14:40-14:50 Coffee break

Session: Comparative Social Cognition

14:50-15:20 Emilie Genty  
Study of a kind of self-control in lemurs (Eulemur macaco and Eulemur

15:20-15:50 Hika Kuroshima, Hiroko Kuwahata, Kazuo Fujita  
Learning from other people's mistakes: Could monkeys learn wisdom by the follies of others?

15:50-16:20 Takahiro Hisazaki  
Self-other Differentiation, Embarrassment, and Empathy in Toddlers

16:20-16:30 Coffee break

Session: Behavioral development & Cognition of Motion

16:30-17:00 Makiko Uchikoshi, Tetsuro Matsuzawa  
Behavioral development of agile gibbons: The first five years after the birth

17:00-17:30 Foucart Julie, Bril Blandine, Matsuzawa Tetsuro  
Nut-cracking in human and non human primates: Comparative analysis of the nut-cracking movement in relation to the skill level?problematic, hypothesis and protocol

17:30-18:00 Yuko Tokitsu  
The "expertise eye" of archaeologists : Experts' scanning patterns in observing pottery and their memory representation.

18:30-20:30 WELCOME PARTY

July 27, Sunday  
Poster Session  
9:00-11:00

Session: Early Development in Infants

- 11:00-11:30 Masako Myowa-Yamakoshi, Masaki Tomonaga, Masayuki Tanaka, & Tetsuro Matsuzawa  
Development of face processing in infant chimpanzees (Pan troglodytes)
- 11:30-12:00 Naoko Dan  
Infants' understanding of televised images: Can infants utilize information from TV in a real-world task?
- 12:00-12:30 Tessei Kobayashi, Kazuo Hiraki, Ryoko Mugitani, & Toshikazu Hasegawa  
Intermodal arithmetical ability in human infants: 1 object plus 1 tone
- 12:30-13:30 Lunch time

Session: Social Cognition in Human Children

- 13:30-14:00 Atsushi Senju, Toshikazu Hasegawa, Yoshikuni Tojo  
Eye contact detection in children with autism
- 14:00-14:30 Victoria Talwar  
The Development of Children's Lying Behaviour
- 14:30-15:00 Tanya Macgillivray  
Cultural and Behavioral Origins of Teaching: Implicit Theories of Mind.
- 15:00-15:10 Coffee break

Session: Social Cognition (Japanese)

- 15:10-15:40 Kyoko Oizumi  
Young children's memory for Agency
- 15:40-16:10 Hajimu Hayashi  
Effects of understanding other's mental states on moral judgment of commission and omission
- 16:10-16:40 Daisuke Kosugi  
Eighteen- through 22-month-old infants differentially imitate their mothers' actions
